

TEKNOTEL Serves High Performance SurGATE™ to its Customers

Success Story

Sector:
Telecommunication

Surgate Solution:
Surgate E 5000

Surgate Protected:
Since 2007

“SurGATE Messaging Gateway’s success in spam catching and Endersys’ professional support services were well above our expectations.”

«We could not get flexible usage advantage with other security softwares used before Surgate. The most important advantage of Surgate is personalizing domain applications and allowing the creation of different profiles. In this way, our hosting services are now able to be used as manageable services.»

Alper Selcuk
CEO, Teknotel

«Since Teknotel is a telecom company and had already a well-known solution before Surgate, they knew what they need. After trial period they replaced global vendor with Surgate. This is proud of us.»

Baris Simsek
Director, Endersys

Levent Yilmaz
System Administrator, Teknotel
